RE: Antelope Ridge Wind Farm EFSC Application

Dear Sue:

The following Union County Review Comments on the Antelope Ridge Wind Farm EFSC Application are intended to assist you and other Oregon Department of Energy staff members as you perform your review. The applicant has elected to obtain EFSC determination under ORS 469.504(1)(b) whether all land use requirements have been adequately satisfied. Therefore, our comments are focused on the local and statewide land use requirements as we believe they apply to this request.

Our comments are only a recommendation and do not result from any local decision process.

We would be happy to provide any additional assistance upon your request.

Sincerely,

Hanley Jenkins, II
Planning Director
